Personal Statement

I am a highly motivated epidemiologist with a strong background in Cancer Epidemiology and Population Health. I have gained over 10 years of experience working in cancer registration and epidemiology and conducting breast and cervical cancer research in sub-Saharan Africa, as part of collaborative networks. I have excellent verbal, written and analytical skills with publications in high-impact international peer-reviewed journals. My general research interests lie in the area of cancer registration and epidemiology, breast cancer and HIV associated cancers prevention and control in developing countries and in minority populations in the United Kingdom.
